

HendAxis Trust — Daily UAT WhatsApp Briefing Handbook

Facilitator Manual: Ready-to-Copy Daily WhatsApp Broadcasts & Role Checklists (Days 1–12)

■ MASTER QUICK REFERENCE TEST DATA (Pin in WhatsApp)

Paystack MoMo Test Numbers: MTN: 0244000001 (OTP 123456) | Telecel: 0200000002 | AT: 0270000003 | Failed: 0244000002
Paystack Card: 4084 0840 8408 4084 (Exp 12/28, CVV 408, OTP 123456)
Seed Promo Codes: 'BETA2026' (20% Fee Discount), 'WELCOME10' (GHS 10 Off)
Staff URLs: Verifications: /admin-portal/dashboard?tab=verifications | Disputes: tab=disputes | Funds: tab=funds | Appeals: tab=appeals

Day 1: Onboarding, Account Security & KYC Identity

Role B (Sellers)	1. Register seller at /register & confirm phone OTP + email. 2. In /profile, upload banner, logo, description, 3 categories, and mock Ghana Card. 3. Turn ON 2FA TOTP in profile; test login with Google Authenticator.
Role A (Buyers)	1. Register buyer at /register & verify OTP. 2. In /profile, save Default Delivery Address. 3. Test Forgot Password recovery link at /forgot-password.
Role D (Compliance)	1. In /admin-portal/dashboard?tab=verifications, inspect submitted Ghana Cards. 2. Approve Seller #1 & #2 (verify badge on /store/username); Reject Seller #3 with reason.

Day 2: Storefronts, Payment Links & 1-Click WhatsApp Escrow

Role B (Sellers)	1. In /create-link, generate 3 links: Low (GHS 250, Pass Fee), Mid (GHS 3.8k, Absorb Fee), High (GHS 14.5k, Pass Fee). 2. Verify real-time fee math. Post Storefront URL (/store/username) in WhatsApp.
Role A (Buyers)	1. Open Seller Storefront -> Click 'Buy via HendAxis Escrow (WhatsApp)'. 2. Verify prefilled WhatsApp inquiry with product title, price, and instant /create-link generator link. 3. Test opening an inactive link.

Day 3: Public Checkout, Paystack MoMo & Dual-Flow Auth

Role A (Buyers)	1. Test 1 (Guest): Open link in Incognito -> Pay via MoMo (MTN 0244000001, OTP 123456) -> Create account post-checkout. 2. Test 2 (Logged-in): 1-Click Zero-OTP payment with Telecel test number 0200000002. 3. Test 3 (Failed): Pay with 0244000002 -> verify friendly error & retry.
Role B (Sellers)	1. Check Dashboard (/dashboard) -> Order moves to 'Payment Received'. 2. Verify instant SMS/Email new order notification with buyer details. 3. In /ledger, verify funds held in escrow.

Day 4: Dual Logistics (Courier vs Bus OTP) & Upfront Tracking

Role B (Sellers)	- Order 1 (Path A): Dispatch via Courier (DHL/Speedaf) + tracking number + parcel WebP waybill. - Order 2 (Path B): Dispatch via Informal Bus with driver phone, car reg (GT-4821), station (Circle VIP), and waybill photo.
Role A (Buyers)	- In /track (logged out), query with Tx ID + Phone -> enter 6-digit OTP -> unlock driver & waybill. - In /track (logged in), verify 1-Click query loads orders automatically with 0 OTP prompts.

Day 5: Tiered Inspection Periods, 1-Click Release & Reviews

Role A (Buyers)	- In /dashboard?tab=purchases, confirm delivery receipt -> verify tiered timer (24h for <2k, 48h for 2k-10k, 72h for >=10k). - Click 'Approve & Release Funds' -> Submit 3-axis review (Speed, Communication, Overall) + unboxing photo.
Role B (Sellers)	- Check SMS/Email 'Payout Completed' alert. - In /ledger, verify Available Balance credited. - On /store/username, see verified review & post merchant reply.

Day 6: Dispute Resolution Engine, 5-Photo Trail & Retraction

Role A (Buyers)	- In /dashboard?tab=purchases, raise dispute on order in inspection with category + 2 photos. - Test Subsequent Dialogue Append: add extra note ('--- [Update] Charger missing ---') + photo. - On Order 2, test 'Retract Dispute'.
Role B (Sellers)	Open disputed order -> submit seller defense statement + packaging photo in unified chat timeline.
Role C (Arbiters)	- In /admin-portal/dashboard?tab=disputes, inspect 360° buyer/seller intelligence dossiers. - Post formal Arbiter Instruction ('Submit IMEI photo in 24h').

Day 7: Item Return Subsystem, Reverse Pickup OTP & Rulings

Role C (Arbiters)	In /admin-portal/dashboard?tab=disputes, execute 4 rulings: Release to Seller, Full Refund, Partial Split, and Require Return (3-day window).
Role A (Buyers)	On Return order, click 'Dispatch Return' -> enter informal bus details -> receive 6-digit Reverse Pickup OTP.
Role B (Sellers)	Inspect returned parcel -> enter Reverse Pickup OTP -> confirm return receipt -> verify refund is executed.

Day 8: Seller Health Governance, Non-Dispatch & Appeals

Role G & Sellers	- Lead QA triggers check_expired_dispatches task on backdated order. - Seller verifies auto-cancellation, 100% buyer refund, and non-dispatch penalty deduction in /ledger. - Seller hits auto-suspension (>35% default) -> submits appeal in modal.
Role D (Compliance)	- In /admin-portal/dashboard?tab=appeals, review appeal and approve reinstatement. - Verify Clean-Slate: historical defaults do not re-suspend seller.

Day 9: Double-Entry Financial Ledger & Payout Modes

Role E (Finance)	1. In /admin-portal/dashboard?tab=funds, audit double-entry ledger invariant (Total Debits == Total Credits, Imbalance = 0.00 GHS). 2. In tab=finance, create Arbiter Payout Batch.
Role B (Sellers)	1. In /profile, switch Payout Mode to Manual Withdrawal. 2. Complete sale -> In /ledger, request manual payout to MoMo/Bank Account.

Day 10: Promo Codes, Referral Engine & Marketplace Directory

All Testers	1. Referrals: Tester 1 shares /ref/code; Tester 2 registers and buys (>=50 GHS) -> Tester 1 gets GHS 15, Tester 2 gets GHS 10. 2. Promo Codes: Apply 'BETA2026' or 'WELCOME10' on checkout -> verify platform fee discount while seller payout is protected. 3. Directory: In /shops, filter by 16 categories and test multi-token ballpark search.
--------------------	--

Day 11: Edge Cases, Concurrency & Mobile Stress Testing

All Testers	1. Rapid Double-Click: Double-click 'Pay Now' or 'Release' -> verify single execution. 2. Concurrency: Buyer releases funds while Arbiter issues refund at the same exact second -> verify DB lock prevents double payout. 3. Network Interruption: Disconnect Wi-Fi during MoMo flow -> reconnect -> verify recovery. 4. Privilege Escalation: Buyer tries accessing /admin-portal -> verify HTTP 403 Access Denied. 5. Mobile Keyboard: Test checkout on iOS Safari & Android Chrome.
--------------------	--

Day 12: End-to-End Regression & Production Sign-Off

All Testers	1. Bug Retesting: Retest resolved bug tickets in tracker; report 'VERIFIED FIXED' or 'STILL FAILING'. 2. Golden Path Run: Seller creates link -> Buyer applies promo & pays MoMo -> Seller dispatches via Bus -> Buyer tracks via OTP -> Buyer confirms receipt -> Buyer releases funds -> Buyer leaves 5-star review -> Seller replies -> Finance audits 0.00 GHS ledger balance. 3. Production Readiness Sign-off.
--------------------	--
